# Staff Report for the McHenry County Zoning Board of Appeals

**Application:** #Z25-0069

**PIN:** 18-06-400-003

**Address:** 6914 Mensching Rd, Huntley

**Request:** A-1 Agriculture District to A-2 Agriculture District with two (2) variations - to increase the maximum permitted floor area for an ancillary dwelling unit; and to increase the maximum number of bedrooms allowed within an ancillary dwelling unit.

**Hearing:** September 11, 2025

**Applicant:** Nicholas Mason

**Location:** The subject property is located east of Mensching Road approximately one thousand seven hundred and seventy-five (1,775) feet south from the intersection of Mensching Road and Hansel Road, with a common address of 6914 Mensching Road, Huntley, Illinois in Grafton Township.

## Staff Report for the McHenry County Zoning Board of Appeals

### STAFF COMMENTS

*The following comments and conclusions are based upon staff analysis and review prior to this hearing and are to be considered viable unless evidence is established to the contrary. Staff may have additional comments based upon the testimony presented during the public hearing.*

### **BACKGROUND & REQUEST SUMMARY**

The applicant is requesting a map amendment to rezone an eight and a half (8.5) acre portion of land from the A-1 Agriculture District to the A-2 Agriculture District. This tract is part of a larger forty (40) acre parcel, which is intended to remain as a separate, stand-alone vacant parcel.

In conjunction with the rezoning request, the applicant is seeking two (2) variances on the proposed A-2 Agriculture-zoned parcel. A variance to increase the maximum permitted floor area for an ancillary dwelling unit; and a variance to increase the maximum number of bedrooms allowed within an ancillary dwelling unit.

According to the plat of survey, the subject property currently contains a one-story frame residence, a two-story frame barn, and a split-level frame ancillary dwelling with a detached garage.

### **MCHENRY COUNTY UNIFIED DEVELOPMENT ORDINANCE**

- The Applicant must meet the Approval Standards for Map Amendment, listed in §16.20.010.E.1 of the *McHenry County Unified Development Ordinance*.
- The Applicant must meet the A-2 District Rezoning Standards, listed in §16.36.020 of the *McHenry County Unified Development Ordinance*.
- The applicant must meet the Approval Standards for Granting a Variance, listed in County Code Section 16.20.020.F of the *McHenry County Unified Development Ordinance (UDO)*.

### **STAFF ANALYSIS**

#### Current Land Use & Zoning

The property is currently zoned A-1 Agriculture and has been used as a Single-Family Residence with Agriculture uses. To the north, approximately a quarter (0.25) mile from the subject parcel, there are a few E-1 Estate zoned properties. Lots to the south, east and west of the site, have A-1 Agriculture designations. The proposed reclassification is consistent with the A-1 Agriculture zoning surrounding the subject property.

#### 2030 Comprehensive Plan Future Land Use map

The proposed reclassification and two (2) variances are consistent with the future land use designation of **Agriculture and Environmentally Sensitive Area**.

#### 2030 Comprehensive Plan & 2030 and Beyond Analysis

The 2030 Comprehensive Plan and 2030 and Beyond Plan support the reclassification to the A-2 Agriculture District. There is minimal impact to the agricultural, natural, and water resources on the site (*See comments below*).

*McHenry County 2030 and Beyond, Adopted October 18, 2016—*

#### Big Idea #1 Let's make our communities healthy, active, and green

*"We can make it happen by promoting development that is compact, contiguous to, or located within municipalities in order to preserve rural landscapes while providing greater mobility choices for all residents." (p.12)*

- The subject property is located within one and a half (1.5) miles from the City of Huntley.
- The proposed reclassification will preserve the rural landscape and will not increase the density already established for this area.

#### Big Idea #2 Let's build on our strengths

*"We can make it happen by preserving our open space and agricultural landscapes, which provide recreational opportunities, including ecotourism, and sustain our rural lifestyle and agricultural industry." (p. 14)*

- The proposed reclassification is a mechanism to preserve agricultural lands in the county.

### Big Idea #3 Let's grow smarter

*"We can make it happen by focusing development that is compact, contiguous to, or located within municipalities, and away from areas designated for agriculture and lacking infrastructure and services." (p. 16)*

- The proposed reclassification is consistent with the agriculture use of the surrounding properties. Granting the reclassification would not prohibit agriculture uses in the area to continue.

### Big Idea #4 Let's expand our economy

No applicable text.

## *McHenry County 2030 Comprehensive Plan, Adopted April 20, 2010*

### Community Character & Housing

*"Living with the land is the core belief of the rural lifestyle and it's because of these farmers, conservationists, and caretakers that the County is able to still hold on to its history and traditions...." "It is this way of life that still gives McHenry County its rural character. It fosters the protection of nature, the recharging of aquifers, and the preservation of the County's rich resources for future generations." (p. 23)*

- Reclassification to the A-2 Agriculture District preserves the essential aspects of the rural character by allowing agriculture uses to continue.
- A small Eastern portion of the subject property is within the Sensitive Aquifer Recharge Area (SARA).

### Agricultural Resources

*"Maintain and protect the most productive agricultural lands, where appropriate, by discouraging nonagricultural growth in these areas." (p. 29)*

- The proposed reclassification to the A-2 Agriculture District would have a minimal impact to agricultural resources and allow agriculture land uses to continue.

### Greenways, Open Space & Natural Resources

Objective: *"Promote land uses that minimize the impact on land, water, energy, and other natural resources" ... (p. 43)*

- The McHenry-Lake County Soil and Water Conservation District *Natural Resources Inventory* was received. According to the letter, the FEMA Flood Insurance Rate Map (Panel 17111C0305J) designates the southwestern portion of the subject property as Zone A (100-year floodplain). As a result, permit requirements may apply if future construction is proposed within this area. The letter also states that a full NRI report is not required, as no wetlands or additional floodplain areas were identified on the parcel. For further details, please refer to the attached NRI Letter #L25-044-4705.

### Water Resources

Objective: *"Preserve, improve, and replenish the quality and quantity of existing groundwater resources." (p. 63)*

- The proposed reclassification does not include any new improvements that would increase impervious surface area.

### Economic Development

No applicable text.

### Infrastructure

No applicable text.

### Land Use

Objective: *"Preserve areas with aggregate resources from encroachment from development uses." (p. 125)*

- As previously noted, the proposed reclassification will preserve the rural landscape and will not increase the density already established for this area.

## **STAFF ASSESSMENT**

The applicant is requesting a map amendment from the A-1 Agriculture District to the A-2 Agriculture District on eight and a half (8.5) acres. In addition, the applicant is seeking two (2) variances: one variance to increase the maximum permitted floor area for an ancillary dwelling unit; and a variance to increase the maximum number of bedrooms allowed within an ancillary dwelling unit.

The request is consistent with the existing Agriculture and Single-Family Residential land uses of the area. The request is also consistent with the recommendations provided in the 2030 and Beyond Plan and the 2030 Comprehensive Plan text. The reclassification is consistent with the future land use map designations of **Agriculture and Environmentally Sensitive**. A small Eastern portion of the subject property is within the Sensitive Aquifer Recharge Area (SARA) however, no additional improvements are contemplated in conjunction with this reclassification. Staff has no objection to the applicant's request for reclassification.

Report prepared July 25, 2025, by Melody Jacobson, Planner - McHenry County Department of Planning & Development.

## **Section 16.20.010.E.1 of the McHenry County Unified Development Ordinance**

*Approval Standards for Zoning Amendments.* The Zoning Board of Appeals recommendation and the County Board decision shall consider the following standards. However, the Zoning Board of Appeals' recommendation and the County Board's decision on any zoning text or map amendment is not controlled by any one factor under the following standards, but rather the approval of amendments is based on a balancing of the factors under each standard.

1. *Approval Standards for Map Amendments.*

- a. The compatibility of the proposed zoning with the existing use and zoning of nearby property.
- b. The extent to which property values of the subject property are diminished by the existing zoning.
- c. The extent to which the public health, safety, and welfare of the public are promoted by the existing zoning.
- d. The relative gain to the public, as compared to the hardship imposed upon the applicant, if the proposed zoning is denied.
- e. The suitability of the property for the purposes for which it is presently zoned.
- f. The length of time the property has been vacant as zoned considered in the context of land development in the vicinity of the subject property.
- g. The community need for the proposed use.
- h. The consistency of the proposed amendment with the adopted comprehensive plan and the appropriateness of the comprehensive plan to the subject property.

### **Section 16.36.020 of the McHenry County Unified Development Ordinance**

In addition to meeting the standards for a map amendment in § [16.20.010](#) (Zoning Map and Text Amendment), all rezonings to the A-2 District must meet the following additional requirements:

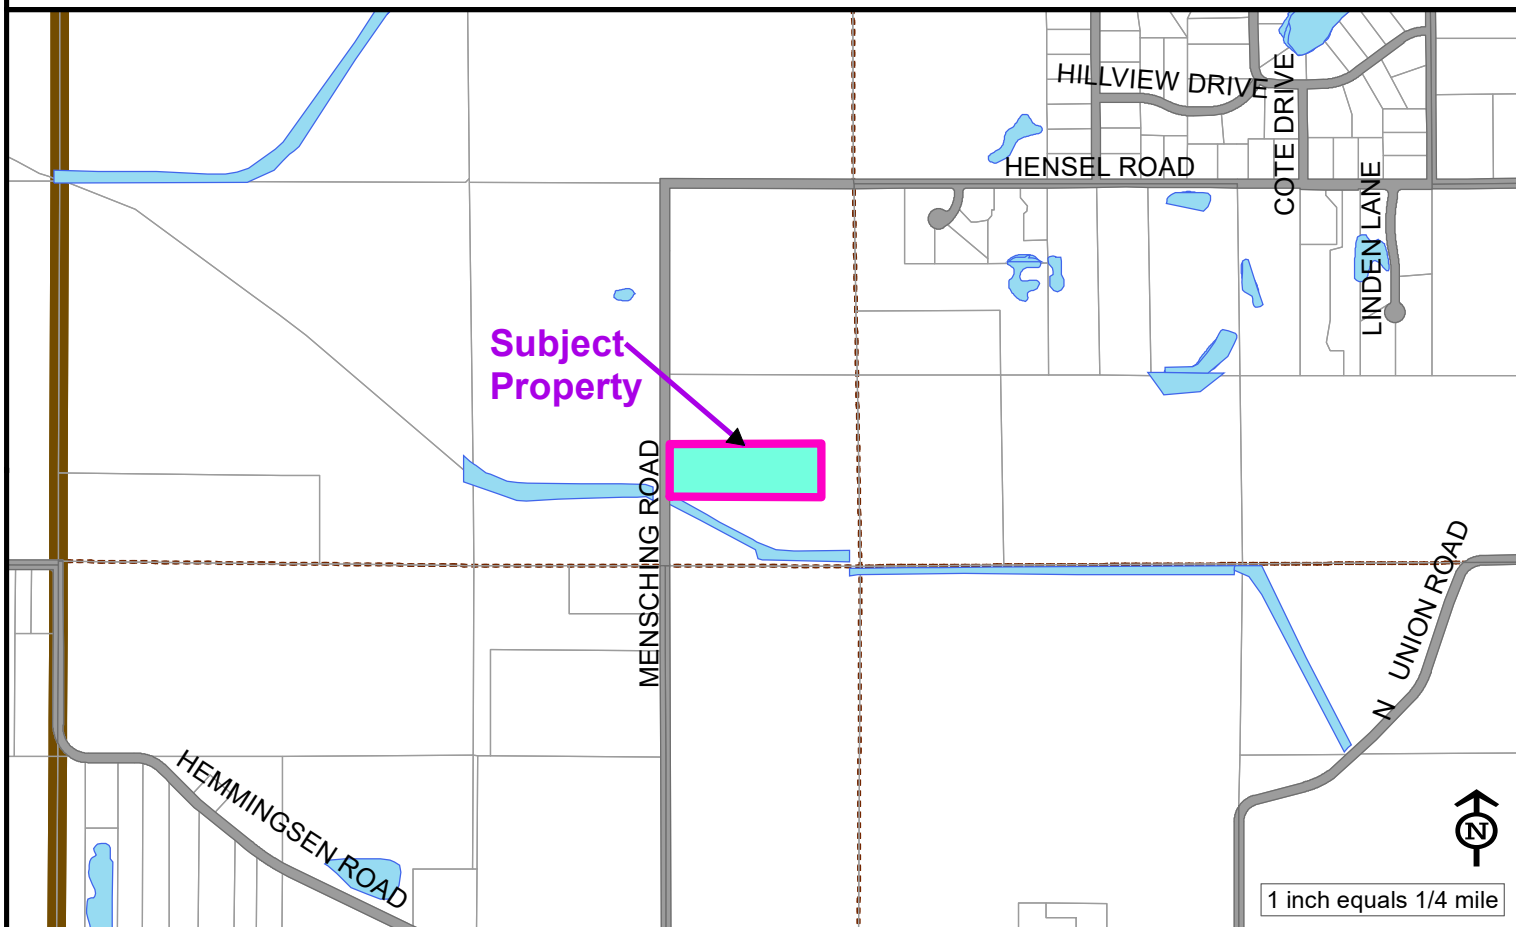

- A. Only property in the A-1 District is eligible for rezoning to the A-2 District.
- B. The subject property shall have an existing lawfully constructed residential dwelling on the property. Mobile homes, agricultural trailers, and agriculture employee housing do not qualify under this standard.
- C. The zoning petition shall be restricted to a single existing or proposed parcel.
- D. The subject property shall meet one (1) of the following three (3) relevant exemptions from the Plat Act (765 ILCS 205/ *et seq.*) as amended. In the event that the Plat Act is amended, the provisions of the Illinois Compiled Statutes shall control.
  - 1. The division or subdivision of land into parcels or tracts of five (5) acres or more in size which does not involve any new streets or easements of access.
  - 2. The sale or exchange of parcels or tracts of land following the division into no more than two (2) parts of a particular parcel or tract of land existing on July 17, 1959 and not involving any new streets or easements of access.
  - 3. The sale of a single lot of less than five (5) acres from a larger tract when a survey is made by an Illinois Registered Land Surveyor, provided that this exemption shall not apply to the sale of any subsequent lots from the same larger tract of land, as determined by the dimensions and configuration of the larger tract on October 1, 1973, and provided also that this exemption does not invalidate any local requirements applicable to the subdivision of land.

## **Section 16.20.020.F of the McHenry County Unified Development Ordinance**

*F. Approval Standards for Zoning Variations.* No zoning variation from the provisions of this Ordinance may be granted unless the Zoning Board of Appeals or Hearing Officer and County Board makes specific findings that the request meets each of the standards imposed by this section. These standards are as follows:

1. The particular surroundings, shape, or topographical condition of the specific property involved would result in a particular hardship upon the owner, as distinguished from a mere inconvenience, if the strict letter of the regulations was carried out.
2. The conditions upon which the application for a variation are based are unique to the property for which the variation is sought and are not generally applicable to other property within the same zoning district.
3. The purpose of the variation is not based exclusively upon a desire to increase the monetary gain realized from the property.
4. The alleged difficulty or hardship is caused by the Ordinance and has not been created by any person presently having an interest in the property.
5. That the granting of the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located.
6. That the proposed variation will not impair an adequate supply of light and air to adjacent property, or substantially increase the congestion in the public streets, or increase the danger of fire, or endanger the public safety, or substantially diminish or impair property values within the adjacent neighborhood.
7. That the granting of the variation requested will not confer on the applicant any special privilege that is denied by this Ordinance to other land or structure of the same zoning district.

Huntley: Single Family Estate (1+ Acres)

## McHenry County 2030 Comprehensive Plan — Text Analysis

### Land Use

**AGRICULTURAL** – represents existing agricultural acres, including cropland, pastureland, farmyards, and farmsteads, that should remain in agricultural use through the 2030 planning horizon. Development in the Agricultural District should be strictly limited to agriculture, agricultural residences, and agricultural support uses.

### Land Use

**ENVIRONMENTALLY SENSITIVE AREAS** – include existing floodplains, floodways, wetlands 10 acres and larger. These environmental resources are further discussed in the Greenways, Open Space, and Natural Resources and the Water Resources sections of the 2030 plan. Environmentally sensitive areas should be protected from negative impacts of adjacent land uses.

### Sensitive Aquifer Recharge Areas

The site is partially located in a zone with elevated contamination potential.

## Sensitive Aquifer Recharge Areas (SARA)

Re: Parcel # Part of 18-05-300-005, 18-05-300-006, 18-06-400-003  
Common Location: 6914 Mensching Rd., Huntley, IL  
NRI# L25-044-4705  
Zoning Change: A-1 to A-2

Dear Mr. Mason:

The McHenry-Lake County Soil and Water Conservation District has carefully reviewed your application for Natural Resource Information Report on the Ralph Doden property as applied for in Report #25-044-4705. Due to the amount of previously disturbed soils on the site, the SWCD finds that impact to natural resources from the proposed use is minimal for the purposes of the NRI report. A full Natural Resource Information Report will not be necessary, but we would like to highlight a few resources on and adjacent to the property.

The FEMA Flood Insurance Rate Map (Panel 17111C0305J) indicates Zone A, 100-year floodplain on the southwestern portion of the parcel (see attached map). If additional construction is to occur it is recommended that you contact the McHenry County Department of Planning & Development for possible permitting requirements.

No wetlands were found on the A-2 site from office maps. Our wetland inventory is for informational and planning purposes only. Any proposed drainage work, in wet areas, requires a certified wetland delineation. If drainage work is to occur, please contact the Army Corps of Engineers and McHenry County Department of Planning & Development for permit information.

This letter fulfills your requirement to notify the SWCD of land use changes as per the Illinois Compiled State Statutes, Chapter 70, Par. 405/1 et seq. Illinois Revised Statutes, Ch. 5, Par 106 et seq. and the McHenry County Stormwater Ordinance. If you have any questions concerning this letter, feel free to call our office.

Sincerely,

Spring M. Duffey  
Executive Director

Z25-0069

Project Name: Doden Split

Project Description: Property located at 6914 Mensching Rd Huntley, IL is being requested to split the original parcel attached to Mensching rd. into two parcels. The request is to split the existing two houses off onto their own parcel and

Permit Type: MAP AMENDMENT WITH ZONING VARIATION

Site Address (Parcel) Owner Name: 2017 Tyler Trl

Parcel Identification Number: 18-06-400-003

Site (Parcel) Address: 6914 MENSCHING RD HUNTLEY, IL 60142

Number of Acres: 8.49

Site Address (Parcel) Owner Phone Number: 847-668-0698

Site Address (Parcel) Owner Email Address: ralphdoden@att.net

Applicant Name (if other than owner): Mason,Nicholas

Primary Contact: Mason,Nicholas

Applicant Address: 2017 Tyler Trl

Applicant Phone Number: 8153551155

Applicant Email Address: nick@haydenoutdoors.com

Property located at 6914 Mensching Rd Huntley, IL is being requested to split the original parcel attached to Mensching rd. into two parcels. The request is to split the existing two houses off onto their own parcel and the farmland as a stand-alone vacant land parcel. The house parcel meets the county and city standards with adequate road frontage for the acreage (8 acres). We are requesting the current zoning A-1 to an A-2 district. This reclassification is to ensure both parcels can be maximized for use and sell-ability.

We are aware that the current dwelling allowance for a secondary dwelling is being requested as well. Due to the layout of the dwellings and current requirements for a split, it isn't feasible for us to request a third split for the secondary dwelling. We are requesting that a variance is granted for the secondary dwelling to go from 900 square feet to approximately 1200 square feet for the secondary dwelling.

4/2024

Ancillary building has a total square footage 1,493. Build bedroom 1 bathroom and has a half second floor. The for approximately 1,084 square feet.

Ancillary Building

**Approval Standards for Map Amendments**  
(McHenry County Unified Development Ordinance §16.20.010E.1)

This form must be completed for requests for map amendment(s). Yes and No answers are insufficient, please provide a minimum of one (1) or two (2) sentence explanation. If there is insufficient room (650 character limit), please provide a separate response page.

1. Is the **proposed zoning designation** compatible with the existing uses and zoning designations of nearby properties?

Yes, there are several residence on lots below 10 acres in the are. The remaining ground is agriculture and planned to be sold as such.

2. To what extent is the value of the subject property diminished by the **existing zoning designation**?

Significant in terms of the market value and buying pool for the houses. As it sits the houses and agriculture land won't attract many suitable buyers.

3. Is there a benefit to the health, safety, and welfare of the public under the **current zoning designation**?

No, the land is being used for agriculture and the residences are set off from the main road. There is not benefit or change to the public if the property were to be split and no loss in revenue for the county or local business.

4. Is the property suitable for uses allowed under the **current zoning designation**?

Yes. The acreage is good quality soils and produces quality yields on the crops. The houses are suitable for living.

5. How long has the property been vacant under the **current zoning designation**?

The property isn't vacant. The farm land is being leased and in production. The houses have both been lived in within the last year. One is currently being lived in and the other lost it's occupant within the last six months but is still being cared for the by the other individuals living on the property.

6. Is there a public need for the **proposed use** of the property?

Yes. The houses will be put to use and more affordable for the public if split and sold separately. Same goes for the remaining acreage as farm land. The continued use of the farm ground will benefit the public by being affordable for the local farmers or investors.

7. Is the proposed use consistent with the McHenry County 2030 and Beyond Comprehensive Plan? If not, please explain how the plan designation is inappropriate for this property?

Yes, this area isn't in the future growth plan and the agriculture land doesn't fall within any future use plans.

*If the requested zoning classification is A-2 Agriculture District, then address the following (From McHenry County Unified Development Ordinance §16.36.020)*

1. What is the current zoning of the subject property (note: only properties which are currently zoned A-1 Agriculture may be considered for A-2 Agriculture zoning)?

A-1 Agriculture District

2. Excluding mobile homes, agricultural trailers, and agriculture employee housing, is there a residence on the property?

Yes

No

3. Is the area being reclassified part of more than one parcel?

Yes

No

4. Which exemption from the Illinois Plat Act (765 ILCS 205/ et seq.) applies to this request?

a. The division or subdivision of land into parcels or tracts of five (5) acres or more in size which does not involve any new streets or easements of access?

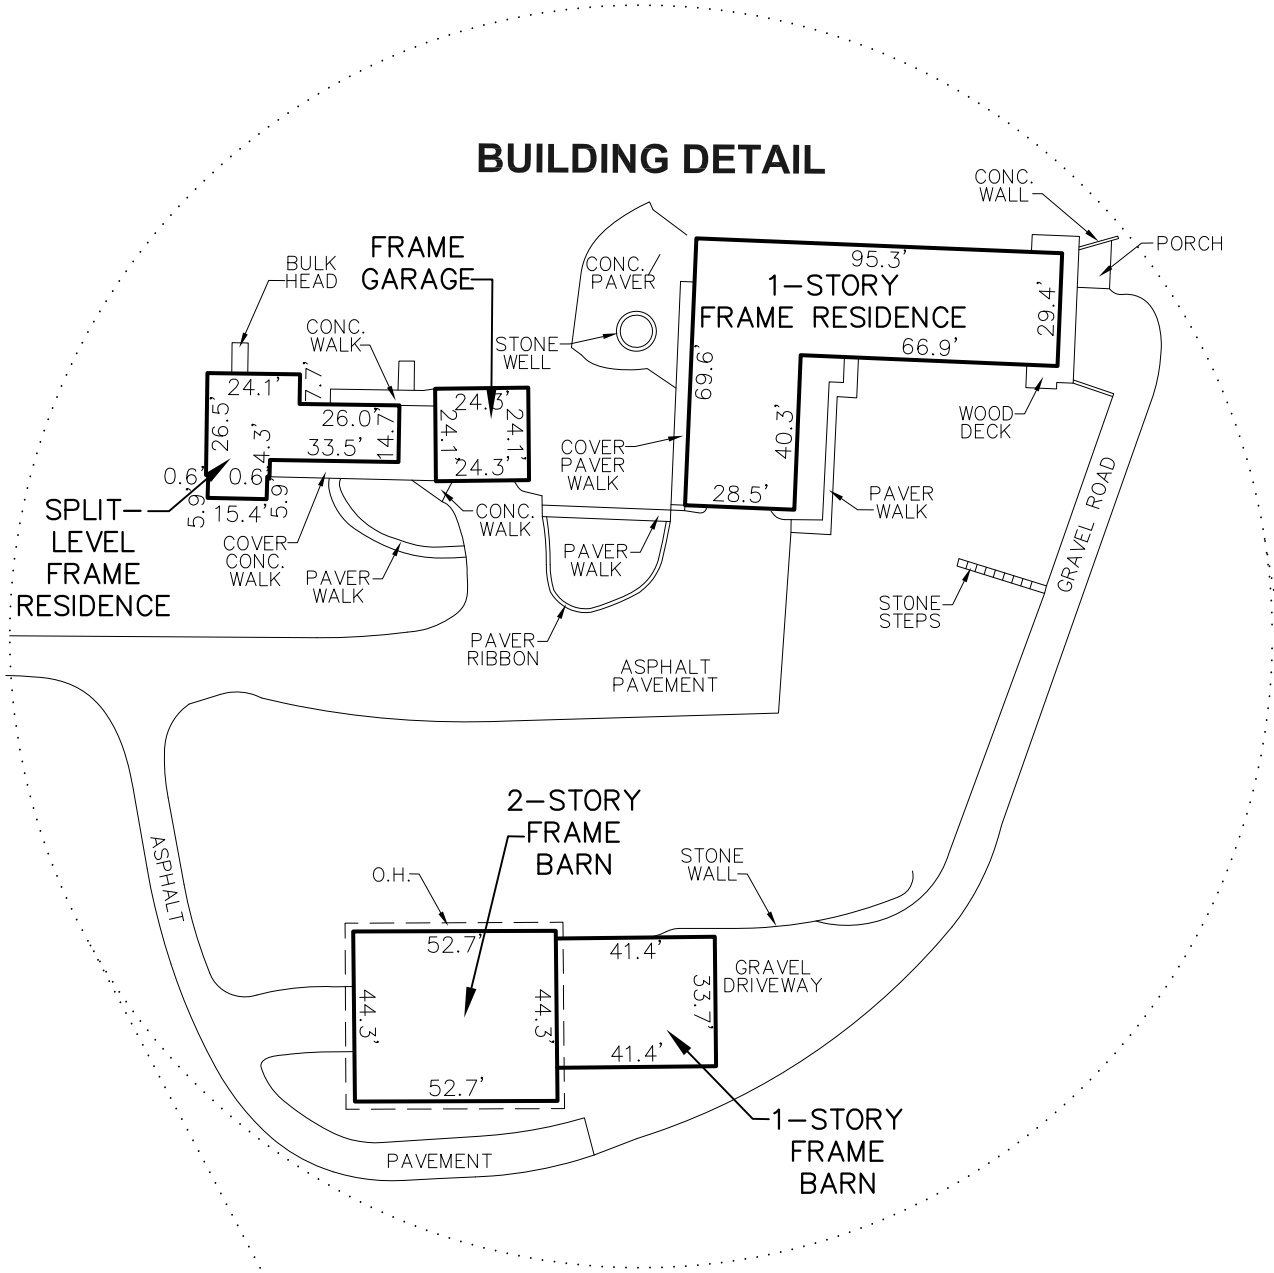

b. The sale or exchange of parcels or tracts of land following the division into no more than two (2) parts of a particular parcel or tract of land existing on July 17, 1959 and not involving any new streets or easements of access?

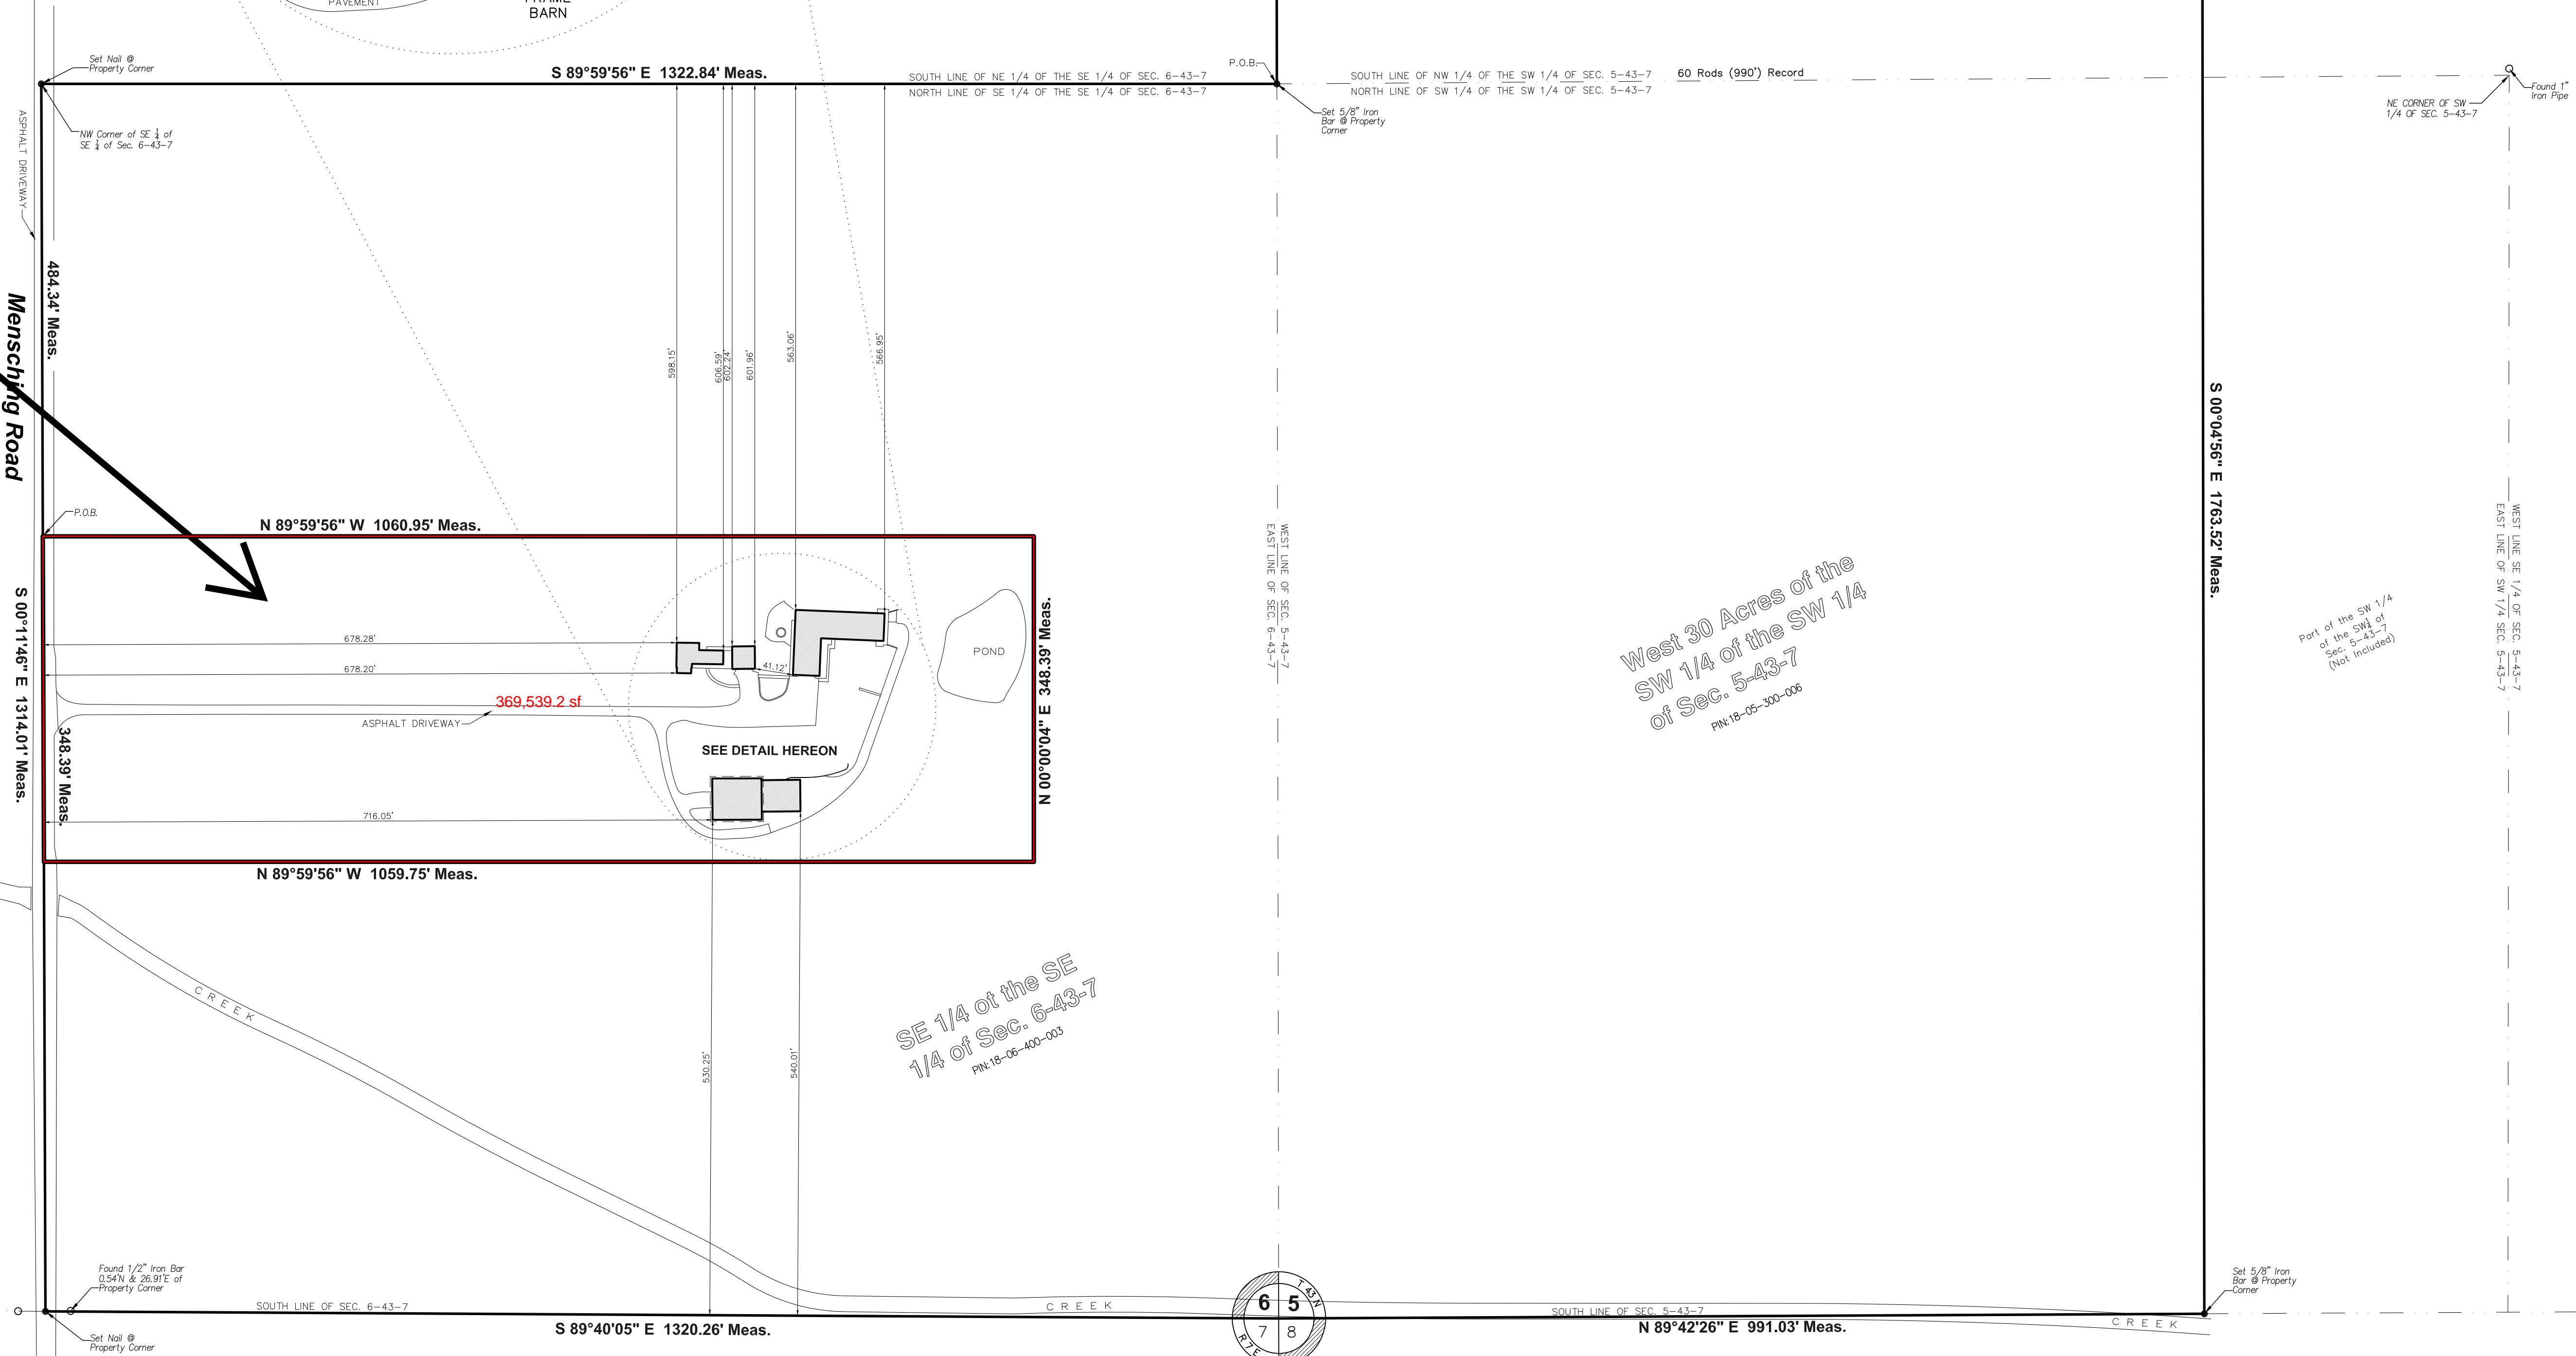

c. The sale of a single lot of less than five (5) acres from a larger tract when a survey is made by an Illinois Registered Land Surveyor, provided that this exemption shall not apply to the sale of any subsequent lots from the same larger tract of land, as determined by the dimensions and configuration of the larger tract on October 1, 1973, and provided also that this exemption does not invalidate any local requirements applicable to the subdivision of property?

Re: Parcel # Part of 18-05-300-005, 18-05-300-006, 18-06-400-003  
Common Location: 6914 Mensching Rd., Huntley, IL  
NRI# L25-044-4705  
Zoning Change: A-1 to A-2

Dear Mr. Mason:

The McHenry-Lake County Soil and Water Conservation District has carefully reviewed your application for Natural Resource Information Report on the Ralph Doden property as applied for in Report #25-044-4705. Due to the amount of previously disturbed soils on the site, the SWCD finds that impact to natural resources from the proposed use is minimal for the purposes of the NRI report. A full Natural Resource Information Report will not be necessary, but we would like to highlight a few resources on and adjacent to the property.

The FEMA Flood Insurance Rate Map (Panel 17111C0305J) indicates Zone A, 100-year floodplain on the southwestern portion of the parcel (see attached map). If additional construction is to occur it is recommended that you contact the McHenry County Department of Planning & Development for possible permitting requirements.

No wetlands were found on the A-2 site from office maps. Our wetland inventory is for informational and planning purposes only. Any proposed drainage work, in wet areas, requires a certified wetland delineation. If drainage work is to occur, please contact the Army Corps of Engineers and McHenry County Department of Planning & Development for permit information.

This letter fulfills your requirement to notify the SWCD of land use changes as per the Illinois Compiled State Statutes, Chapter 70, Par. 405/1 et seq. Illinois Revised Statutes, Ch. 5, Par 106 et seq. and the McHenry County Stormwater Ordinance. If you have any questions concerning this letter, feel free to call our office.

Sincerely,

Spring M. Duffey

## CORPORATE DISCLOSURE

Applications shall be brought in the name of the record title owner or the owner(s) of the beneficial interest through authorized agents. If application is made by a corporation or partnership for any zoning map amendment, variation, or conditional use permit, the application and notice shall identify the names and addresses of all officers and directors and all shareholders/stockholders owning an interest in excess of seven and one-half percent (7.5%)

If an owner, officer, director, shareholder/stockholder is another legal entity and not an individual, we require the same information (name, title, address) for that entity.

Name of Entity:			
Name	Title (officers, directors, shareholders/stockholders)	Address (address, city, state, zip)	Percent of ownership interest
Ralph Doden	Executor of Trust Trust Beneficiary	6914 Mensching Road Huntley IL 60142	33 1/3
Richard Doden	Trust Beneficiary	8245 McCurry Rd. Rosco, IL 61073	33 1/3
Cindy Josefczyk	Trust Beneficiary	6675 N. Hiawatha Ave. Chicago, IL 60646	33 1/3

Please attach additional information, if needed.

IN THE MATTER OF THE APPLICATION OF	)	
<b>CARROLL F. DODEN IRREVOCABLE STANDBY TRUST 1005943 AND</b>	)	
<b>URSULA A. DODEN IRREVOCABLE STANDBY TRUST 1005944,</b>	)	LEGAL NOTICE OF PUBLIC HEARING
OWNERS FOR AN AMENDMENT OF THE UNIFIED DEVELOPMENT	)	Z25-0069
ORDINANCE OF McHENRY COUNTY, ILLINOIS FOR	)	
<b>A RECLASSIFICATION AND VARIATION</b>	)	

Notice is hereby given in compliance with the McHenry County Unified Development Ordinance, that a public hearing will be held before the **McHenry County Zoning Board of Appeals**, in connection with this Ordinance, which would result in a **RECLASSIFICATION AND VARIATION** for the following described real estate:

PART OF THE SOUTHEAST QUARTER OF THE SOUTHEAST QUARTER OF SECTION 6 TOWNSHIP 43 NORTH, RANGE 7 EAST OF THE THIRD PRINCIPAL MERIDIAN, DESCRIBED AS FOLLOWS: BEGINNING AT A POINT ON THE WEST LINE OF SAID QUARTER QUARTER SECTION THAT IS 484.34 FEET SOUTH OF THE NORTHWEST CORNER THEREOF; THENCE EAST ON A LINE THAT IS PARALLEL TO THE NORTH LINE OF SAID QUARTER QUARTER SECTION, A DISTANCE OF 1060.95 FEET; THENCE SOUTH, PERPENDICULAR TO THE LAST DESCRIBED COURSE, A DISTANCE OF 348.39 FEET; THENCE WEST ON A LINE THAT IS PARALLEL TO THE NORTH LINE OF SAID QUARTER QUARTER SECTION, A DISTANCE OF 1059.75 FEET TO THE WEST LINE OF SAID QUARTER SECTION; THENCE NORTH 348.39 FEET TO THE POINT OF BEGINNING IN MCHENRY COUNTY, ILLINOIS.

Part of PIN 18-06-400-003

The subject property is located on the east side of Mensching Road approximately one thousand seven hundred seventy-five (1,775) feet south from the intersection of Mensching Road and Hensel Road, **with a common address of 6914 Mensching Road, Huntley, Illinois in Grafton Township.**

The subject property is presently zoned **“A-1” Agriculture District** and consists of approximately **eight and a half (8.5) acres** with **“A-1” Agriculture District** zoning to the North, East, South and West.

<p>The Applicants are requesting a reclassification from <b>“A-1” Agriculture District</b> to <b>“A-2” Agriculture District</b> and variations to allow: 1) one thousand two hundred (1,200) square feet of habitable space instead of the maximum nine hundred (900) square feet of habitable space allowed for an ancillary dwelling unit and 2) three (3) bedrooms instead of the maximum two (2) bedrooms allowed for an existing ancillary dwelling unit.</p>
--

The trustees for the Carroll F Doden Irrevocable Standby Trust 1005943 and the Ursula A. Doden Irrevocable Standby Trust 1005944, applicants and owners, are: Ralph Doden, who can be reached at 6914 Mensching Road, Huntley, Illinois; Richard Doden who can be reached at 8245 McCurry Road, Roscoe, Illinois; and Cindy Josefczyk who can be reached at 6675 N. Hiawatha Avenue, Chicago, Illinois.

A hearing on this Petition will be held on the 11<sup>th</sup> day of September 2025 at 1:30 P.M. in the County Board Conference Room at the McHenry County Government Center/Ware Road Administration Building 667 Ware Road, Woodstock, Illinois at which time and place any person desiring to be heard may be present. The McHenry County Government Center mailing address is 2200 N. Seminary Avenue, Woodstock, Illinois 60098.

# **Maranatha Assembly of God – Conditional Use Permit Narrative**

Maranatha Assembly of God is excited about how our mission is advancing in the community we love. We believe the opportunity ahead of us will serve our faith community and the surrounding community for years to come. As part of our ongoing mission to support and enrich the lives of those in our community, we are requesting a Conditional Use Permit for an addition to our current building. This expansion will add 50' x 76' of space to our existing structure, plus a new canopy with an air-lock vestibule. The Total size of the canopy would be 12'x15' which would include the 12'x7' vestibule. This will replace the main use of the current sanctuary in our existing building allowing us to better serve our members and guest. Although we are seeking a new conditional use, we are asking for the same consideration taken for our prior Conditional Use, for there to not be an end date. We are asking for this consideration because we plan to continue to serve our community in this facility and use this property in a beneficial manner to all.

## ***Improved Accessibility***

Our desire is for this addition to improve accessibility for all who come to our church. We will be adjusting some of the current landscaping by creating a retaining wall near our current entrance to further improve accessibility to the building, coinciding with moving our handicap spaces down into our main parking area. These two adjustments will create a new zero-clearance main entrance to our worship space ensuring that everyone, regardless of mobility challenges, can enter and exit the building with ease.

The proposed building will also feature two new handicap accessible bathrooms with three stalls in the women's bathroom and two stalls with one urinal in the men's bathroom. We would also like to have a baptismal tank in the new building if possible, but are finalizing designs with our architect. Our existing building has three total bathrooms consisting of seven stalls and two urinals. Two of those bathrooms are the primary men and women's bathrooms used by both our kids & adults. The third bathroom is an upstairs bathroom which is not often used and will not often be used following the new construction. With the proposed addition we will be effectively doubling our bathrooms, creating handicap accessibility, and a separation between children's and adult use. These changes, along with moving everyone to one level, will create a safer and more welcoming environment for all.

## ***Intended Use***

The new space will replace our current worship space serving as our primary gathering area for Sunday morning services for adults. The current worship space will be used for luncheons, meals, and special gatherings but will no longer be our worship space. By building this new structure all of our primary worship places will be on one level with the first floor of the existing building continuing to be utilized for children's ministry on Sundays and as office space during the week. Monday-Friday during normal working hours, there are only around 2-5 people on site during a typical work week. Our largest day of gathering tends to be Sunday mornings. Although we current only average around 50 people, we believe these adjustments will help us to maximize our current 77 parking spaces, being 75 regular spaces and 2 handicapped spaces. Our potential with current parking spaces accommodates around 230 seats, with the new building will accommodate 168 seats, we estimate another 30-40 seats in the children's church area of our current building to still be in use, bringing our total seats to an estimated 198-208. Without needing additional paving our parking lot allows for an additional 42 spaces by resealing and lining the parking lot, a potential of ~350 seats.

In keeping with our mission, this addition will also serve as a place to assist and support those in need, providing a safe and welcoming space for outreach and service projects that directly benefit the local community. Our current area we use as a sanctuary will serve as a place for meals and luncheons from time to time, either with our church

family or through community outreach events, but is not currently planned to be in use for our Sunday morning gatherings. We could see this as a potential space for Teens to gather during an alternate time to use for their services, but this would not be in conjunction with other use at this time.

### ***Project Oversight & Community Impact***

To ensure that this project is completed safely, efficiently, and according to all building codes and applicable standards, we have partnered with Robert Clarke of Above Par Construction, a reputable and experienced contractor. Furthermore, we have made provisions in our contract to ensure that construction activities do not interfere with our ongoing use of the current facility. This includes stipulations to minimize construction noise and disruption outside of normal working hours, in consideration of our neighbors.

We believe that this expansion will greatly benefit our church family and the broader community by creating a more accessible, and inviting space for everyone. We are excited about the positive impact this project will have on both our congregation and the surrounding area, and we appreciate your consideration of this request for a Conditional Use Permit.

Thank you for your time and support.

Sincerely,

Pastor Cameron Ward  
Maranatha Assembly of God

M A R A N

**Approval Standards for Conditional Use**  
(McHenry County Unified Development Ordinance §16.20.040E)

This form must be completed for requests for Conditional Use(s). Yes and No answers are insufficient, please provide a minimum of one (1) or two (2) sentence explanation. If there is insufficient room (650 character limit), please provide a separate response page.

1. Please describe how the conditional use meets all applicable standards of UDO §16.56 (Use Standards) and §16.60 (Site Development Standards).

The new conditional use will continue to maintain all applicable standards of use of the current site. The proposed addition, while slightly increasing the foot print of our current structure, will continue to maintain all site development standards both during construction and following completion.

2. Is the conditional use (compatible with the existing or planned future development of the area?)

Yes, our church has been a staple in the community for over 40 years, and desires to continue serving the community indefinitely. This desire lead us to conducting ourselves in way that is beneficial to residents in the area. This is why we are seeking a conditional use rather than rezoning, as maintaining the residential zoning will protect the long term future development of the property.

3. Is the conditional use detrimental to or endanger the public health, safety, morals, comfort, or general welfare of the area?

No, our current use has seen us increase and promote these very things. This is evident by serving as a local food kitchen, partnering with local schools to provide supplies to students, and asking those who are part of our church to serve their community. We encourage all members to comfort those who are in need, contribute to every community they are apart of, and to live morally.

4. Will the conditional use be injurious to the use and enjoyment of other property in the area?

No, we plan to continue to be a benefit to all of the surrounding residential and commercial properties that surround us by maintaining our grounds and serving our community. We believe this additional space will help us to increase the enjoyment of our property and improve the enjoyment of surrounding property.

5. Will the conditional use substantially diminish and impair property value in the area?

We do not believe there would be any substantial harm done to property values in the area by the slight increase to our facility. It could be possible that this addition could even increase property value as we desire to build with beauty and excellence to improve the exterior of our church.

6. Are adequate utilities, access roads, drainage, and other necessary facilities provided?

Yes. Following the pre-application meeting it was determined the proposed addition to the structure was under the required thresholds and would be consistent with current provided facilities.

7. Has conditional use operation been designed to provide ingress and egress to minimize traffic congestion and hazard on the public streets?

Yes. Following the pre-application meeting it was determined the proposed addition to the structure was under the required thresholds and would be sufficient to maintain ingress and egress to minimize traffic congestion and hazard on the public streets?

8. Will the conditional use conform to the applicable standards of the underlying zoning district?

Yes the conditional use will continue to conform to all applicable standards for the underlying zoning district.

9. Will the conditional use be reasonably in the interest of the public welfare?

Yes, the updated conditional use will continue to be reasonably in the interest of the public welfare.

10. Will there be adequate measures taken to provide protection to groundwater recharge and groundwater quality?

Yes all permits, health and safety standards will be followed and abided by according to code.

PLAT OF SURVEY

The South 18 acres of the North 28 acres (except the West 737.90' thereof) of the Northeast Quarter of the Southwest Quarter of Section 21, Township 45 North, Range 8 East of the Third Principal Meridian, in McHenry County, Illinois.

Common Location: 2505 N Ringwood Road, McHenry, IL 60050  
NRI# L25-013-4674  
Zoning Change: E1C to E1C

Dear Mr. Ward:

The McHenry-Lake County Soil and Water Conservation District has carefully reviewed your application for Natural Resource Information Report on the Maranatha Assembly of God property as applied for in Report #L25-013-4674. Due to the size of the parcel and minimal or no new construction, the SWCD finds that impact to natural resources from the proposed use is minimal for the purposes of the NRI report. A full Natural Resource Information Report will not be necessary.

No wetlands, hydric soils, or floodplains were found on the site from office maps. Our inventories are for informational and planning purposes only. Any proposed drainage work, in wet areas, requires a certified wetland delineation. If drainage work is to occur, please contact the Army Corps of Engineers and McHenry County Department of Planning & Development for permit information.

This letter fulfills your requirement to notify the SWCD of land use changes as per the Illinois Compiled State Statutes, Chapter 70, Par. 405/1 et seq. Illinois Revised Statutes, Ch. 5, Par 106 et seq. and the McHenry County Stormwater Ordinance. If you have any questions concerning this letter, feel free to call our office.

Sincerely,

Ryan Bieber  
Urban Conservation Specialist
