**MEMORANDUM**

TO: Clear Channel Outdoor LLC  
FROM: Water Resources Division (Stoyan Kolev)  
DATE: July 3, 2024  
REGARDING: Staff Plat Review Committee Comments – Petition # 2024-035

---

Based on my review of the provided application information, I have the following comments based on the McHenry County Stormwater Management Ordinance (SMO):

- The project summary indicated that there will be no new structure construction and the appropriate electrical utilities are existing at the location. Therefore, there are no comments from the Water Resources Division regarding the change from a printed sign to a digital. The project narrative does indicate that there will be an additional weight that will require some structural updates/upgrades. I don't anticipate a Stormwater Management Permit would be required, but the Water Resources Division will review those plans at the time of permit submittal to confirm.
