RE: Additional funding request for Psychological Evaluations for Preadmission Screening

Dear Board of Directors and Leonetta Rizzi,

Service, Inc. of Illinois is requesting additional funding to continue performing Psychological Evaluations for Preadmission Screening in McHenry County. Our original funding was \$19,000 and as of July 31st, 2024, we have utilized \$15,175. With four months remaining in the fiscal year, we have forecasted an additional \$3,000 for assessments to be completed by November 30th. We currently have 9 individuals in our pipeline, and anticipate 3 possibly 4 additional assessments on top of that.

We utilize four different providers in McHenry County, and since the start of the fiscal year, thirty (30) evaluations have been performed. McHenry County is also serviced by our staff as part of a grant awarded by the state of Illinois.

We appreciate the board taking the time to consider our request for an additional \$3,000 of funding.

Thank you,
Scott Ripke
Chief Financial Officer
